 DRAFT CARD — ODDS NOT YET POSTED

Books haven't hung tier-2 rugby lines for the July 18 round yet (typically 1–3 days out). Analysis and leans are locked below; odds, stakes, and the mandatory longshot get assigned when lines post — target: Friday July 17. No money is at risk yet and the account dashboard counts this card as QUEUED, not active.

FORM THROUGH TWO ROUNDS

THE UNBEATENS

- ▶ **Georgia 2-0:** beat Uruguay 41–34 away-style shootout, then dismantled Samoa 33–12 — clear class of the field
- ▶ **USA 2-0:** survived Portugal 30–29, handled Zimbabwe 31–15 — winning but not dominant
- ▶ **Chile 2-0:** 48–31 over Romania, 38–17 over Hong Kong — untested vs the top
- ▶ **Spain 1-0-1:** 42–42 draw at Canada, then 32–19 over Tonga — improving weekly

ANGLES TO PRICE ON FRIDAY

- ▶ Georgia's handicap vs Chile — books may under-rate the gap (Georgia is a Tier-1-adjacent side)
- ▶ USA-Spain total — USA games have been tight & high-ish; Spain's attack traveled well
- ▶ Portugal -hcp vs Tonga — Tonga has faded in second halves both weeks
- ▶ Longshot candidate: exact-margin or Spain outright upset, depending on prices

Finalization plan. Friday July 17: pull posted lines (moneylines, handicaps, totals), assign the \$1,000 across the leans above with estimated win probabilities vs de-vigged market — same method as every card — and designate the 🏈 longshot. If books hang lines on fewer than four of the six matches, the card shrinks to what's priced and the remainder stays in the account. This card only becomes ACTIVE (and counts against the 4-card cap) when money is assigned.
